

WELLS FARGO'S PORTFOLIO

PRISONS & FORECLOSURE

Instead of paying their fair share, Wells Fargo got a \$681 million in federal tax refund from 2008-10, all the while profiting from building prisons and blighting our communities

Foreclosure

One of the worst players in the housing crisis that led to the economic collapse, Wells Fargo is well known for its predatory sub-prime lending and its unwillingness to work with homeowners once the crisis hit. *Wells Fargo's actions have resulted in thousands of foreclosed homes and blighted communities.*

Prisons & Immigration

Wells Fargo is one of the largest investors in the GEO Group, Inc. One of the two largest private prison companies in the U.S., GEO Group lobbied for Arizona's SB 1070 law, one of the worst anti-immigrant laws in the country.
